

36 patients to go!

We are pleased that 764 patients have now been recruited to the LoTS care trial. This means there are just 36 patients remaining to reach our recruitment target of 800 patients. **Thank you** for all your hard work and support.

High recruiting services are reaching the upper recruitment target of 45 patients and closing to recruitment so it is down to you to recruit the final few patients for us!

We would be delighted to reach 800 patients by the end of March. Thank you all for your support in the final drive in recruitment. We are so close and don't want to fail now!!
